		Annual update of networks, tables and organizations and discussion; Community Tour day	Jamila, Barry, Maggie, Nabria
--	--	---	-------------------------------

This workplan is the result of our BCCC discussion at the February 19 2019 meeting. Our overall goal for the year is to gear our work toward increased strategic thinking as a collaborative through skills, opportunities, information sharing. A focus on these three areas this year will lead us closer to our goal of working more strategically and collaboratively with the community and as service providers in Black Creek and getting closer to aligning individual goals with BCCC goals.
